

The overwhelming
feedback was for a bra
that was not beige!

● Uplifting news

A little left-field but definitely worth reporting, Intimo has just released a new range of bras for women who have undergone breast surgery.

The bra was designed in collaboration with women who have had mastectomies, and the overwhelming feedback was for a bra that was not beige!

The women wanted a stylish bra that was functional, beautiful and in a choice of delicious colours. The bras include a high lace panel to add extra coverage, pockets sewn into the cups to hold a prosthesis, cotton lining to absorb perspiration, and no underwire, reducing irritation.

The mastectomy bra comes in white, black and peaches and cream in sizes 32B–38DD.

Television star Nicky Buckley has just launched the Intimo Spring Collection in all new colours – peaches and cream, coral and flamingo pink.

The collection features soft shades, delicate designs and flowing fabrics, and includes bras, slips, camisoles, sleepwear and loungewear pieces.

The best news is that Intimo has an extended range of sizing, with bras available in sizes from 32A all the way through to 42F.
